

FastFed

OpenID Summit Fall 2016

Best Practice

- Federate SaaS applications to IdP
- Single Sign On
- Centralized Management

Why don't people do it?

- Looks hard to do
- It is hard to do
- Many apps don't support federation

Today

- Federation takes hours if an IdP recipe
- Days or weeks if not
- Unclear what an app developer is to do

FastFed Objective

- **Basic setup in minutes!**

How?

- Highly prescriptive configuration
- A small number of profiles for existing, common patterns
- Meta Spec that describes everything needed by the IdP and SaaS app
- SAML 2.0, OIDC, SCIM, OAuth 2.0

Who is involved?

- Amazon
- Cisco
- Google
- Microsoft
- NRI
- Oracle
- Ping Identity
- Salesforce

Next Steps

- IIW Sessions to identify common patterns
- Common use case document(s)
